	Never ask	Always ask	Never ask	Never ask	Never ask	Never ask	Never ask

* Settings included from JP 7.4

JP7 phones from JP 7.4 - "Read / Write user data" permission will automatically change from "Always ask" to "Never ask" if the user selects "Yes" in the system prompt when first accessing the file system or PIM data

JP7 phones from JP 7.4 - "Messaging" permission in the Trusted 3rd Party domain will automatically change from "Ask once" to "Never ask" if the user selects "Yes" when first prompted by the system for using the API.
